

Cap 8 80x40 Zn, black

Reference: AK8-80x40-ZN

Material: GD-Zn

Surface: powder coated

Color: black

m = 52.0 g

Caps 8 Zn, black are particularly resistant and break-proof. They are fastened in the core drill holes of the base profiles using the additionally offered [countersunk screws 8 SF M7.1](#). The screws ensure a secure and vibration-resistant hold. The cap 8 Zn is temperature-resistant, provides an improved appearance, helps to avoid cuts and prevents the ingress of dirt.
