## Roller element 8 80 with flange

Reference: RE8-BK

Consists of:
Cover element with flange, PA-GF, black
Base element, PA-GF, black
3 Rollers, POM, black
2 Cylinder screws M5x25, St, galvanized
Load: $F_{max}$ = 50 N
m = 53.5 g

Roller elements are used for the construction of castor conveyors. Two supplied cylinder screws M5x25 are used for mounting. By screwing in the screws, the roller elements are automatically fixed in the profile groove.
