

Castor insert D9, black

Reference: RE-D9-S

Material: PA-GF

Color: Castor color: black

Load: Load capacity $F_{\max} = 100 \text{ N}$
 $m = 29.5 \text{ g}$

Castor insert D9 with 5x cylindrical rollers $D = 9.0 \text{ mm}$, suitable for castor rail 8 40x40. The minimized roller distance of 10.0 mm prevents workpieces or containers from dipping into the roller gap. Due to the reduced point load it is particularly suitable for very soft cardboard boxes and rough structured box bottoms. The installation length of the roller inserts is 50 mm each. The housing color is black for all roller inserts.
