

Hinge 6 PA, right

Reference: SCH6-PA-R

Consists of:

Hinge 6 PA, right, PA-GF, black

Cylinder pin, St, galvanized

Washer, PA, black

Load: $F_{\max} = 75 \text{ N}$

$m = 13.5 \text{ g}$

Hinges PA are well-suited for light doors and flaps. They are equipped with an anti-twist lock which is inserted into the profile groove. Surface elements which are fastened using hinges PA have to be processed with through bores (for processing drawing see downloads). Door elements can be attached in such a way that they can be subsequently lifted out or permanently mounted. Hinges on the right and left can be combined.
