

Hinge 2D 76x60 Zn, black

Reference: SCH8-2D-B

Adjustable in width

Hole spacing: 34 mm (height)

Hole spacing: 38-46 mm (width)

Consists of:

Hinge, GD-Zn, black, powder coated

Axle, stainless steel (A2)

Load: $F_{\max} = 1200 \text{ N}$

$m = 202.0 \text{ g}$

Hinges 2D are robust universally applicable hinges for flaps and doors with higher loads. The door gap can be individually adjusted in the range of 0-8 mm using the supplied adjustment washers. They are attached to the profile groove using separately orderable T-slot nuts and countersunk screws M6.
