

Hinge 8 40 Zn with clamp lever

Reference: SCH8-40-ZN-KH

Consists of:

Hinge, GD-Zn, black powder coated

Clamp lever, PA-GF, black

Load: $F_{\max} = 500 \text{ N}$

$m = 210.5 \text{ g}$

Hinges 8 Zn with clamp lever are universal hinges for flaps and doors with higher loads. Furthermore, profiles can also be connected at any angle. Integrated anti-twist locks for additional fixing in the groove are attached. These can optionally be removed. The hinge has a swivel range of up to 180°. The hinges can be locked by means of an integrated clamp lever; the holding force is based on the length of the attached struts.
