DATA SHEET

Knuckle foot D40 M8x80

Reference: S-D40-M8x80

Telefon: +49 84 63 603 63-0

Fax: +49 84 63 603 63-11

Consists of:
Plate D40 PA, black
Threaded rod M8x60, St, galvanized
Hexagon nut M8, St, galvanized
Load: F_{max} = 1500 N

m = 42.0 g

Knuckle feet are used for adjusting the height of tables and frames of any type. The height is infinitely adjustable. The inclination adjustment is ensured by a ball socket. A separately orderable rubber insert can be used to prevent displacement and to protect the floor.
