

Safety hanger 8/8, galvanized

Reference: SI-AH8/8-VZ

Consists of:
Safety suspension
Mounting kit
Material: St
Surface: galvanized
m = 978.0 g

The safety hanger 8/8, galvanized is a rough and break-proof suspension for fixing profile frames to upright profiles. Both the frame and the upright are made of series 8 profiles. The safety hanger is easy to install and offers effective protection by tamper-proof screws. The component meets the requirements of the machinery directive 2006/42/EC. One set of safety hanger is required per profile frame. A fixing set suitable for profile slot 8 is included.
