

System handle 8 Al - 400

Reference: SYG-8-400

Hole spacing: 400.0 mm

Total length: 440.8 mm

Consists of:

2 End pieces for system handle

2 Caps for system handle

2 T-Slot nuts 8 St M8, galvanized

2 Button-head screws M8x20, galvanized

Handle bar Al, anodized, d = 30.0 mm (L = 270.0 mm)

m = 179.0 g

The system handle 8 Al is a modular handle that can be individually adjusted in length. The anodized handle bar Al - D30 visually matches the established aluminum modular system. The handle can be screwed on from the front using T-slot nuts and screws as well as from the rear using an insert nut M8. Individual components or preassembled kits in various lengths can be ordered.
