

Uni block 5 PA M4, black

Reference: UB-5-PA-M4

Consists of:

Base body PA-GF, black

Square nut M4, St, galvanized

m = 2.5 g

Uni blocks enable reliable fastening of any surface element to the profile groove. Uni blocks can always be used at a later time. Select the mounting location freely by rotating into the profile groove. A slotted hole and a movable securing groove ensure a wide mounting margin.
