## **DATA SHEET**

## Uni multiblock 8 PA, black

Reference: UKB8

Gap dimension = 5.0 mm (circumferential) Consists of: Base body and notch Material: PA-GF Color: black m = 9.0 g

The uni terminal blocks are used for simple installation of light surface elements. The terminal block can be installed and locked into existing constructions using the insert-rotate-principle at a later time. The surface element is mounted using an attachment clip. Different position of the stop surfaces enable variable installation options.
