

Universal-fastening set 5/8, galvanized

Reference: UV5-8-SZ

Consists of:

Universal-fastener 5, GD-Zn, galvanized

Cap screw DIN912-M4x18, St, galvanized

T-slot nut 8 Zn M4, galvanized

M = 3 Nm

m = 9.0 g

The universal-fastening set 5/8 is a force locked, right-angled connection with the possibility of combining series 5 profile struts with series 8 profiles. It is optimally suited for the installation of small profile cross-sections in existing constructions. The connector can be mounted quickly and easily by a drilling. Note [connection machining](#)!
