

Universal-fastening set 8, stainless

Reference: UV8-SZ-R

Consists of:

Universal-fastener 8, GD-Zn, galvanized

Button-head screw M8x30, stainless steel (A2)

T-slot nut 8 St M8, stainless steel (A2)

M = 20 Nm

m = 41.0 g

The universal-fastener is a friction-locked, right-angled connection which offers the possibility of adjusting profile struts. It is optimally suited for the installation of profiles in existing constructions. The fastener can be installed quickly and easily by means of a stepped hole. For highly stressed joints, it is recommended to use the universal connectors in pairs. The stainless steel (A2) used for the T-slot nut and the fixing screw provides protection in wet and outdoor areas.
