

Connecting cable 2m for multi-socket  
power strip/ light-plug-socket(GST18/3)

Reference: ASL-SB-SSL-L

Technical data:

Total length: 2m

Type: GST18I3, 3-pole; 250V / 16A

Cable: H05VV-F 3G1,5

Protection class: IP20

Color: black

m = 253.0 g

The connecting cable or extension cable can be used to connect system socket strips and systemLED lamps. The connection cable has a GST18/3 plug on one end and a GST18/3 socket on the other end. The GST18 standard offers the advantage of a VDE compliant plug connection. Time-consuming wiring of the supply line is no longer necessary and terminal devices can be connected or interconnected quickly and safely.
